Progressive > Content Exercise Index Video: Present the perfect continuous content index Video: present perfect This exercise is a practice to make English perfect continuously tense. You must create either a positive or a negative form. It's really important to make sure that you're sure to do forms of tension so you can then focus on when to use them, which is a little harder. Even some of my advanced students aren't really 100% sure of the forms, and it really shows whether you need to speak English in a hurry or during exams when you're stressed out.
